

DD/A 80-2482/1

14 NOV 1980

MEMORANDUM FOR: SA/DDCI

25X1 FROM:

[REDACTED]
Chief, Management Staff, DDA

SUBJECT: Community Long-Range Planning Proposal - RMS

REFERENCE: Your memo to Mbrs, CIA Long-Range Planning Group
dtd 6 Nov 80, same subject (EXCOM 9136-80)

1. I have reviewed the RMS paper and draft outline concerning the development of a framework for evaluating collection system vulnerabilities during the 1990s. My initial judgment is that the initiation of any such effort would probably have little direct impact on Administration Directorate offices, given the collection orientation of the proposal. I suspect that DDA participation in any such undertaking would be beneficial and worthwhile but that our contributions could be handled within existing resources.

2. I don't think my comments on the substance of the draft outline would be either meaningful or appropriate. However, I am available to discuss this with you at your pleasure.
